

Black Spot Remover

The easy way to remove black spots from your patio, path & driveway.

- Destroys black spots for good in one easy application.
- No power washing or scrubbing required.
- Goes to work fast on all kinds of brick, stone and concrete.

Availability: 5 Litres

Power through black spots, lichen, moss and stains using this easy application formula. The deep cleaning softwash solution works on a wide range of outdoor surfaces to lift, clean and destroy black spots with absolutely no scrubbing or power washing required.

Can be used on block paving, concrete, flags, stone, bricks and more to remove unsightly stains, dirt and grime. Black Spot Remover will rejuvenate your outdoor surfaces with ease to keep your patio, garden, path and driveway looking their best all year round with no elbow grease, specialist equipment or expensive contractors required.

The softwashing formula also helps to reduce moss and algae growth and will easily eliminate grime and dirt from natural stone and similar hard surfaces.

Every 5 Litre unit provides extreme cleaning action for approximately 25 square meters, and can be easily applied by plastic watering can, pressure sprayer or other similar equipment: just spray, rinse and watch the magic happen.

Directions for use:

Ready to use formulation. Product is applied neat through plastic watering can or sprayable equipment. Apply directly to the surface to be treated and leave to soak in, product will begin to react as it gets to work. Leave product on surface between 4–6 hours to allow time to work. When sufficient time has been allowed for the product to work, rinse off the area thoroughly. For best results use a pressure washer. Always test in a small inconspicuous area before using to ensure it is suitable and desired effect is achieved. Ensure that the area to be treated is cleared of garden furniture and other items so that they are not in accidental contact with the product. Ensure that all loose dirt and other physical debris is removed first by brushing prior to application. Product can be applied to slightly damp surfaces or dry surfaces. Do not apply to surfaces where they are saturated from recent rainfall or if rain is due within the time period required to treat the surface.

KEEP PETS AND OTHER ANIMALS AWAY FROM AREA UNTIL ENTIRE OPERATION IS COMPLETED.

AVOID CONTACT WITH PONDS.

RINSE ALL EQUIPMENT THAT HAS BEEN IN CONTACT WITH THE PRODUCT WITH COLD WATER AFTER USE.

STORE IN A COOL, DARK, AREA AWAY FROM HEAT AND DIRECT SUNLIGHT.
